Examiner's Amendment

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stefan Miller on September 21, 2009.

The following amendments were discussed and agreed to by Applicant:

1) **Delete** claims 1-5, 12-14 and 16-22.

Reasons for Allowance

The claimed invention of "the method of treating migraine, comprising: administering to a mammal having a migraine a therapeutically effective amount of an α -aminoamide of formula (I)" is novel and non-obvious. The closest prior art is due to Pevarello (WO 99/35125). Pevarello teaches the instant compounds, however does not teach them for the treatment of migraines. Additionally, Applicants have successfully demonstrated via *in vitro* results of the compounds encompassed by formula I as being effective in treating migraines using cerebral blood flow studies. Thus the claimed invention is rendered neither anticipated nor obvious.

Conclusion

Claims 24-39 are allowed.
